## **Tyminskyi - International Urbanism | University of Stuttgart**

This chapter reviews two of the most prevalent planning strategies proposed to combat urban sprawl, i.e. smart growth (or new urbanism) and green infrastructure planning. The former is predominantly derived from a frustration over the failure of American planning projects, and is increasingly adopted among planners in North American and European metropolitan regions.

## **Contemporary Urban Planning (10th Edition): Levy, John M ...**

The pedagogy of urban planning education should include an understanding of the growth and complexity of city development issues, especially the best ways to respond to dealing with current and future challenges. At the same time, the nature of the city that urban planners engage with continues to change, with one major challenge being the increasing growth of informal settlements.
