measure. Using the proper number of significant figures may be extremely important. Examples. What is  $234.3 + 11.16$ ?  $234.3 + 11.16 = 245.5$  Being that one of the addends only has 1 decimal place, the ...

### **Adding Significant Figures (Sig Fig) Calculator**

The number of significant figures is determined by starting with the leftmost non-zero digit. The leftmost non-zero digit is sometimes called the most significant digit or the most significant figure. For example, in the number 0.004205, the '4' is the most significant figure. The left-hand '0's are not significant.

It is common to report statistically significant p-values with an asterisk. Let's say, for example, you want to report p-values at the .05 level — any number below this threshold should be followed by an asterisk. You can use conditional formatting in Excel to automate this process. Want to really automate the process?

### **Excel Conditional Formatting for Statistical Significance**

The number of significant figures is still determined by the accuracy of the initial speed value in m/s - for example,  $15.23 * 3.6 = 54.83$ . To use an exact value in the calculator, give the value to the greatest number of significant figures in the calculation. So for this example, you would enter  $15.23 * 3.600$  into the calculator.

in a number, and find which digits are significant. You can use this calculator for significant figures practice: Test your ability to find how many significant figures are in a number. Enter whole numbers, real numbers, scientific notation or e notation. Example inputs are, 3500, 35.0056,  $3.5 \times 10^3$  and  $3.5e3$ .

### **Significant Figures Counter - CalculatorSoup**

The level of statistical significance is often expressed as a p-value between 0 and 1. The smaller the p-value, the stronger the evidence that you should reject the null hypothesis. A p-value less than 0.05 (typically  $\leq 0.05$ ) is statistically significant. It indicates strong evidence against the null hypothesis, as there is less than a 5% ...
