### Light & Shadow in Skin Tones - YouTube

In this tutorial I begin with some color theory about skin tones and how we perceive light and shadow. Then I move into how to mix flesh tones using the 3 subtractive primaries, and why you are better off not using black to create shadow areas. Use complements instead. I end by creating a color sketch.

For a cool, color-changing peach shadow experience, look no further than Peach Pretense by Stila. This unique liquid shadow is white in the tube and then turns the prettiest, icy peach color when applied to the lids. It's the perfect, illuminating shade for medium skin tones if you want to brighten your complexion.

### **The Best Peach Eyeshadow for Your Skin Tone | Makeup.com**

I fill in the form shadow, working over the first, form shadow core band. It's at this point I swap back to the 2B and draw the hard, sharp line at the base of the cast shadow. Using the softer 6B pencil, I reinforce the cast shadow depth of tone. Holding the pencil lightly, I gently indicate the softer, lighter tail of the cast shadow.
