Ebooks are available as PDF, EPUB, Kindle and plain text files, though not all titles are available in all formats.

Merchants Of Grain The Power

Cura Annonae ("care of Annona") was the term used in ancient Rome, in honour of their goddess Annona, to describe the import and distribution of grain to the residents of the cities of Rome and, after its foundation, Constantinople. Rome imported most of the grain consumed by its population, estimated to number one million people by the second century AD.

The Byzantine economy was among the most robust economies in the Mediterranean for many centuries. Constantinople was a prime hub in a trading network that at various times extended across nearly all of Eurasia and North Africa. Some scholars argue that, up until the arrival of the Arabs in the 7th century, the Eastern Roman Empire had the most powerful economy in the world.

Merchants and the Crusaders brought wind technology to Europe. The Dutch developed large windpumps to drain lakes and marshes in the Rhine River Delta. Immigrants from Europe eventually took wind energy technology to the Western Hemisphere. American colonists used windmills to grind grain, to pump water, and to cut wood at sawmills.
